Free Again Wildlife Rehabilitation

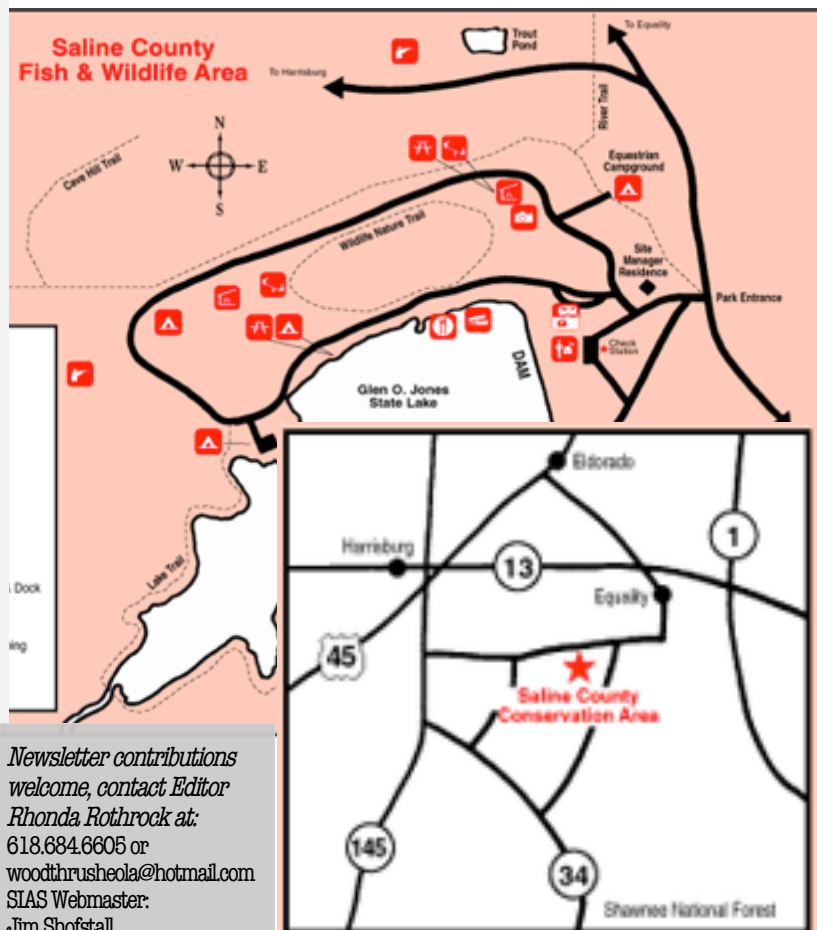

Spring is here and with spring comes the birth of baby birds and mammals. Many of these babies will be found as abandoned, orphaned, or injured and taken to Free Again Wildlife Rehabilitation.

Please support Free Again by donating items such as cleaning supplies, including bleach, dish soap, sponges and paper towels, or animal supplies including dog/cat food, pedialyte, aquariums, large pet carriers, or cedar litter. Cash donations are graciously accepted.

For more information or to donate, contact Free Again, Inc., 4031 Big Muddy Rd., Carterville, IL 62918. If you have time and energy to volunteer on site at Free Again, your help would be greatly appreciated, phone 618.988.1067 for details.

On Cold Spring Mornings, Spend Some Time in the Sun

Many birds depend on finding insects first thing in the morning to refuel after energetically demanding nights spent migrating hundreds of miles. Insects depend on the sun's warmth to get them out of their lethargic state. Where there are bugs, there are birds. That's where you want to be. Look for birds in the first sunny spots early in the morning, often at habitat edges, where woods meet fields, ponds, or open space.
